

Make a parachute that will carry a paper clip load.

Materials you will need:

Cellophane or tissue paper
String
Masking tape
Paper clips
Scissors
Ruler
Hole punch

Steps:

1. Cut a cellophane or tissue paper square (36cm)
2. Put a piece of tape on each corner
3. Punch a hole through tape at each corner
4. Cut four pieces of string 41cm long
5. Tie a piece of string to each corner
6. Tie loose ends of string together
7. Attach paper clip (add more to increase the load)
