

Purple Cow[™] Mid-Sized Crapemyrtle

Botanical Name: *Lagerstroemia hybrid* 'GAMAD IX' PPAF

Trademarks: Part of the Gardener's Confidence[®] Collection

Distinguishing Features:

- Deep purple flowers
- Reddish stems on new growth
- Dark green foliage
- Disease resistance

Hardiness Zones: Zones 6-9; AHS Heat Zones 5-10

Habit and Growth Rate: Mid-sized grower, upright; medium growth rate; Mature size 6'-10'.

Light Requirements: Full Sun

Culture: Moist well-drained medium, incorporate organic matter into the soil; easy to grow.

Landscape Application: Group or mass planting, containers, borders. Adds color to the summer and fall landscape. Will re-bloom if spent flowers are removed.

Origin: Open pollinated seedling. Introduced via University of Georgia Research Foundation, Dr. Michael A. Dirr

Availability/Distribution: National release began Spring 2012 with growers in many parts of the U.S.A.
