

5 recipes for making FAKE snow

1. Baking soda and shaving cream. Mix together 1lb of baking soda and slowly add shaving cream until you reach the perfect snowy consistency. Let kids knead the fake snow until it is all combined.
2. Baking soda and water. Pour 1 cup of baking soda into a bowl and add water one tablespoon at a time. Use a fork or whisk to stir together, adding more water as you go. When it's light and powdery, it's ready.
3. Baking soda and conditioner. Start with a $\frac{1}{2}$ cup of conditioner, and use a fork to stir in about 3 cups of baking soda. This snow packs very well and it great for making a snowman.
use white conditioner to make white snow
4. Shaving cream and cornstarch. Mix equal parts shaving cream (foam not gel) and cornstarch. This makes a dense, foamy snow that is easy to mold.
5. Cornstarch and lotion. Mix together equal parts cornstarch and lotion for this crumbly snow. For a more powdery snow, add slightly less lotion than cornstarch.

BONUS ideas

To give your fake snow extra flair, try adding glitter or even essential oils.

Put "snow" in the freezer to make it cold to the touch.

Use cookie cutters, plastic utensils and snowman decorating supplies for more fun.
